

## CRCP-76-IP65 'Slide Under' Commercial Refrigeration Cabinet Pump IP65

The CRCP-76-IP65... is the BEST rugged use cabinet pump to use on commercial refrigeration display units.

It is just 76mm in height... and simply slides under the refrigeration display units... the stainless steel cabinet 'dry area' has an Ingress Rating of 65... which is a country mile better than any other refrigeration cabinet pump at 'sealing effectiveness' against dust and moisture...and all the creepy crawlies that seem to get into everything electrical!!!

The CRCP-76-IP65 is so versatile...you can install using either 'TOP'-'BACK' or 'SIDE' entry...all in this one cabinet pump unit.
